

I am writing regarding the radio station K-Love. Not only do they have wonderful up beat christian music but they also serve the over all community with timely messages of hope causing people who are in difficult times to call in for help. This has saved many lives from suicide and other serious problems. They have a caring staff! This station benefits the community at large with great music, up to date news and it is fun and relaxing to know that there is no smut in any of their programming. Please keep them on the air.

Sincerely,  
Patricia and Spencer Ward
